Diana,

Thank you for your comments.

Jay Rao of DCOR asked to see copies of other comment letters that were submitted on the draft permit; so I am forwarding your comments to him.

Good morning Mr. Bromley,

Thank you for the opportunity to provide comments on the pre-public notice draft permit and fact sheet for OCS oil and gas facilities in Region 9.

Beta Offshore has prepared some recommendations, comments and questions summarized in the attachment enclosed with this email.

A hard copy will be mailed to your attention via USPS certified mail.

Sincerely,

Diana Lang

Eugene,

The OOC appreciates the opportunity to review and comment on CAG280000. We will send you our comments by July 12, 2019.

Regards,

Jim

Subject: [****EXTERNAL****] Pre-Public Notice Draft OCS General Permit and Fact Sheet for Region 9

All,

Attached is a pre-public notice draft general permit and fact sheet for OCS oil and gas facilities in Region 9. This permit would replace the existing general permit No. CAG280000 that became effective in early 2014.

Also attached are spreadsheets for calculating reasonable potential for specific chemicals and whole effluent toxicity for produced water discharges, and for chlorine in cooling water/fire control system water discharges. In addition, there is an attached spreadsheet that updates the 2006 reasonable potential calculations for produced water using 2019 recommended marine water quality criteria in place of the criteria recommended in 2006.

We request that you provide any comments on these materials you may have within about 5 weeks (by July 12).

Thank you for your cooperation in this matter.
